**There's A Reason  
Remember WATSON'S Store**

## Local and General

L. Ostrander and G. Askey photographers, arrived in Blairmore from Macleod Sunday, en route to Michel, B. C.

Mr. F. Hansen, formerly of St. John, N. B., but recently of Taber, Alta., has secured a position at the Alberta Hotel.

J. B. Harmer, J. D. S. Barrett and Alexander McLean, all of Coleman, spent Sunday afternoon in town.

Married—In Mosco, Idaho, on July 21st, Miss Nellie Wallace, of Julietta, Idaho, to Mr. Harry J. Matheson, of Blairmore, Alta.

The initial number of the "Slavonic Canadie" which is published in French, Italian and Slavonian languages, was put out by the Foothills Job Print and News Co. on Wednesday. The Slavonic Canadie is an interesting sheet and promises to attain a warm place among the foreign speaking people of the Pass. John William Sadler is local representative, while T. B. Brandon and Andre Lukco are editor and interpreter respectively.

Mr. B. MacDougall, who has spent the past two months here with his son, returned home to Maxville, Ontario, this week via Toronto.

Misses Prayer and Goddard returned from Winnipeg Monday morning, having spent an enjoyable time in the Queen City of the West.

Sherriff McLeod returned from Winnipeg Monday, where he had been attending the Industrial Exhibition.

Harry J. Matheson and bride returned Monday from Mosco, Idaho.

Born—On July 25th, to Mr. and Mrs. H. M. Budd, a daughter.

The Coronation of King George V. has been fixed for June 22, 1911.

The Pincher Creek annual fair is being held today and is largely attended by people from all over Southern Alberta.

Good fishing is being had down the North Fork and several local sports returned to town Monday morning with big catches.

The picnic held yesterday afternoon was a most enjoyable affair and was attended by over two hundred children and parents.

Sir Wilfred should stop off at Blairmore and spend three days going through the different apartments of our post office. Some think he could look over the whole building in that time.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for rheumatism and always affords quick relief. Sold by Dealers Everywhere.

G. W. Beard has loaded several cars with logs during the past few days which are being shipped to points eastward.

The Alberta Hotel has received a new coat of paint, which greatly improves the appearance of the building.

P. Nicifero's bakery is nearing completion. The building is of concrete, with two storeys and a large basement.

The report which came from Calgary the early part of the week about the Nova Scotia gentleman losing a fifty year's whisker growth through a forest fire, has caused a general close shave to the bearded Passonians.

Mrs. F. M. Pinkney and Mrs. Dr. Snyder, of Lille, were in town Wednesday, and attended the picnic in the afternoon.

Clark's pictures drew a large audience at Frank last night and tonight new films will be shown in the Opera House. This is little Marion's last appearance and none should miss seeing the kid act.

Watch our pages next week for special pay-day announcements.

A fine Jersey cow, belonging to a French family at Frank, was killed by a train on Saturday in front of the Sanitarium Hotel.

George Ingham is having his new photographic studio fitted up and painted. In a very short time Mr. Ingham will be in a better position than ever before to cater to the requirements of his trade.

The C. P. R. have a gang of men at work grading for a new siding near the depot.

Orin Allan has sold his pool table and cigar store to J. C. Burrows, formerly manager of the Union Hotel at Hillcrest.

H. B. Herrin, of the Alberta Livery, received a message today, stating that the bush fires were burning within a half mile of his homestead and fearing the loss of some of his property, there, Mr. Herrin drove out to the South Fork immediately.

Farmers in the foothills have started haying operations, and it is reported that the crop is away short of former seasons.

It would pay our readers to scan our advertising columns and take advantage of the seasonable offers of your home requirements. Only the most reliable firms in the Pass are represented in these pages and they are most deserving of the public's patronage for their liberal outlay. It pays to advertise and the live business folks are realizing the fact.

Up to press hour fires were still burning near Lille, Hillcrest and Burma.

Andy Miller, one of Blairmore's favorite ball players, received a blow from a ball on Monday, which broke a blood vessel in the nose, necessitating his laying off ever since.

THURSDAY, JULY 28, 1910.

What The Fires Are Doing.

Since our last issue the forest fires have been working without a cessation and thousands of acres of valuable timber tracts and agricultural lands have been diverted of their wealth and beauty. Never in the history of the Crow's Nest Pass has such a large area been devastated by fire and it is estimated that the total destruction will figure over the 1-million mark.

On Friday and Saturday last a few showers of rain brought renewed hope to the uneasy minds of the inhabitants of the Pass, and for a time it was thought all danger had passed and the embers had been quenched; but a stiff breeze on Sunday forenoon fanned the few remaining live briars into flames which gained alarming proportions and caused a great deal of destruction.

On Monday and Tuesday the fire spread in a northerly and westerly direction and for a time on Tuesday afternoon it was feared that the town of Lillo would be doomed. The wind blew with terrific force all the forenoon, from a westerly direction, sweeping the flames across the valley.

Canadian Collieries coke ovens, passing very near the school house and the residence of manager Williams, then skirted the hillside in a northeasterly course, till about 4 p. m. when the wind suddenly chopped around from the eastward and fanned the flames back over the burnt ground.

Many families vacated their homes and the town and were driven out to Frank by willing rescuers who offered their teams for assistance. Gangs of men from Bellevue and Frank were hurried on the scene and a bigger body of fighters never before congregated in the Pass.

For a time matters looked very serious, and it is believed that if the wind had not changed when it did that this flourishing little mining town would have been wiped out. Yesterday matters began to give better promise and it is believed there is little fear of the forest fire again approaching that town.

Another fire of immense proportions has been raging east of Burmis and on the southern side of the river.

That range of the foothills extending from the Burmis to Falls district have been a mass of seething flames for over three days and it is feared many farms and ranch houses in that vicinity have been swept. The country is so clouded with smoke that it is difficult to determine the full extent of this fire, but it is expected that it reached out southward at least ten miles. So far no great damage has been done to any of the towns in this section of the Pass, but any of them are not yet above danger and rain is anxiously looked for.

The Calgary News says: The most disastrous fire of the past month was reported yesterday when the luxuriant growth of fifty years was reported wiped out almost entirely by the flames. The heaviest loss is Mr. G. P. Nelson, customs collector at Truro, N. S., who is at present a guest at the Alberta Hotel.

For the past fifty years Mr. Nelson has carefully nourished and cultivated a crop of whiskers which grew from stubble to silky lengths that reached his waistline. He left the east on his holiday trip and brought his whiskers with him, but when he returns he will return alone.

The reason of this. Gaafing across the city from his hotel window a few days ago, Mr. Nelson was enjoying a mild cigar. At intervals he removed the cigar and held it in his hand, and during one of these intervals the unexpected happened; the land on the cigar caught fire, flamed up and in a second the fifty-year crop was ablaze.

Mr. Nelson acted quickly and smothered the flames without getting badly burned, but the whiskers were gone and by the time the barber had trimmed off the singed edges very little was left.

"I guess I'll have to begin all over again," said Mr. Nelson yesterday, reflectively stroking the stubble, and they used to hang right down to here," he concluded with a sigh indicating his waistline.

Mr. Nelson is revisiting many old friends in Calgary and will leave for the east again in a few days.

800,000 Insects Still Unknown

Few persons appreciate the immense size of the insect family—the irritating mosquito and fly in summer, the much abused caterpillar and industrious spider being the species most prominently in the public mind—but scientists now tell us that although there are only about 200,000 known species of insects, yet we expect to see the day soon when this number will be increased to one million. Of the known species 50,000 are beetles.

Not all insects are injurious to man and field. Some are really beneficial, but it is for the purpose of showing the various species of insects that threaten to destroy, and especially those which work evil to Canadian agriculture and horticulture that the Vancouver Exhibition Association will offer good prizes at the coming fair, August 15 to 20, for the best insect collections. In two of the three classes for which prizes are offered the insect must be strictly Canadian "born". The first calls for 500 specimens and the second 200, all of which must be injurious, and with which must be samples of injury done to field or flower. This contest should be valuable in the way of knowledge to the Canadian farmer and visitor alike.

July "Rod and Gun."

Fascinating is the best description that can be given to the opening article, "Canoing on Lake Superior," appearing in the July number of Rod and Gun in Canada, published by W. J. Taylor Ltd., Woodstock, Ont. The writer and a companion, despite the doleful predictions of their friends, planned and carried out a canoe trip along the northern shore of Lake Superior and thoroughly enjoyed their holiday. They hugged the shore carefully except on one occasion when the temptation to make a short cut across a bay proved irresistible. At the end of the excitement they shook hands and promised each other not to do it again. This will convey to readers far better than a long description, an idea of their experiences. "Canoe Tips in Tomagami," describing the conclusions from the experiences of several seasons in fire-ramping, is a most readable article. Fishing stories from several provinces are timely, while big game hunters are not forgotten as articles on sheep and bear hunts furnish fine reading. Mr. Vance's experience with minks will attract all lovers of our wild animals and may tempt some to try their hands at similar work. In addition there are many other articles, every one appealing to those interested in some phase of outdoor life, and the whole forming a number no sportsman should miss.

Alberta has 5,000,000 acres of ranching lands.

### FRANK NOTES

Mrs. R. Steeves of Calgary, late of the Imperial Hotel was in Frank last week making arrangements to have the Imperial completely overhauled. While there she was the guest of Mrs. A. V. Lang.

Gordon Steeves spent a few days in Frank last week renewing old acquaintances.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Colera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by Dealers Everywhere.

A. Muller and F. Colomer left yesterday for Paris, France.

C. A. Richardson, of Mountain Mill, has taken over the Imperial Hotel livery.

The C. P. R. construction train has been sidetracked here the past couple of days and repairs are being effected between here and Blairmore.

The Methodist congregation are raising funds for the mission here. So far their efforts have been most successful and ere 1911 they expect to hold an independent parish.

### LILLE NOTES

Constable Irvine, of Frank, came to town to assist in fire-fighting.

J. W. May and family left for Cranbrook, B. C., on Monday, where they will reside in future.

The town was almost completely surrounded by fire on Tuesday and Wednesday, but danger has practically passed. A few more fire engines have been sent to Frank, but have returned again.

The Frank fire brigade and a large number of men from Bellevue assisted very materially to ward off the flames on Tuesday, and their efforts were very much appreciated by the people of Lille.

S. J. Sargent, of Blairmore, very kindly assisted in bringing women and children from here to Frank on Tuesday. A friend in need is a friend indeed.

### Never 'Excelled

Down along the Crow's Nest line a country is being opened up and developed that for natural wealth in the way of ideal climatic conditions, fertile soil, minerals, water powers and natural beauty of scenery has never been excelled.—Cranbrook Prospector.

### REDFERN'S LAKE

Passburg's Poplar Retreat

No better place in the Pass to enjoy an outing

Five Boats Splendid Scenery

Only ten minutes walk from Passburg Hotel

J. REDFERN Prop.

### LUNDBRECK NOTES

Mrs. R. Steeves and family who have been the guests of Mrs. T. Madden of Lundbreck for the past week returned home to Calgary on Saturday.

Miss Hazel Madden has returned to Calgary after spending a couple of weeks with her parents at Lundbreck.

Mrs. T. Madden of Lundbreck entertained a number of her friends last Tuesday in honor of her sister Mrs. R. Steeves of Calgary. A very enjoyable afternoon was spent. The room was tastefully arranged, carnations being the flowers chosen for the occasion. A most dainty luncheon was served.

In spite of the dry weather, some of the crops in this vicinity are doing well. A sample of oats from J. O. Patten's farm is three feet high and all filled.

On account of the bush fires farther west the air has been heavily laden with smoke for the past ten days until Tuesday, when the terrible south-west wind cleared things up and cooled off the atmosphere sufficiently so one can sleep nights, but there is yet danger of the fires in the hills coming down over these prairies.

Nearly all the male population of the town were called out Tuesday to fight a fire west of town which threatened for a time to play havoc with this town and surrounding country. However, it was promptly extinguished and no damage done.

Cowley seems to be unfortunate in not being able to get a supply of water. Some of the Cowleys drive over here daily to get their water supply.

The C. P. R. pump at the crees became disabled last Saturday. The traffic is very heavy on this branch of the C. P. R. and it takes about two and a half tankfuls per day to supply engines passing here.

Mr. E. W. Bromley is relieving station agent Harrison here.

A party of fishermen, residents of Blairmore and Coleman, came down the other day and drove up to the North Fork, where it is said they secured over 300 pounds of speckled beauts.

The Breckenridge and Lund and the Galbraith mines are turning out several cars of coal each week, but their work at present is mostly on a development scale.

Alberta has 30,211 farms, 226,584 horses, 950,000 cattle, 154,266 sheep, 113,628 swine. (Census 1906).

### NOTICE TO

Steam Engineers

Notice is hereby given that an examination will be held by Nathaniel Marshall, a duly appointed Inspector of Steam Boilers for the Province of Alberta, at Lethbridge, on August 10th and 11th, in A. B. S. Reading Room, Frank, August 11th, at Frank Hotel, Lethbridge August 12th at 10:30 a.m. for the purpose of giving engineers and apprentices an opportunity of qualifying for Certificates under the provisions of the Steam Boiler Act, 1906.

Application forms may be obtained on application to the Department of the above named Inspector, and must be properly filled out, witnessed and declared before a Commissioner or Justice of the Peace, before an examination can be granted.

JOHN STOOES Deputy Minister.

Department of Public Works, Edmonton, Alta.

## Prize Fighting

Likened To Cock Fighting and  
Bull Fighting—Has Nothing  
In Common With Sports.

Lawrence, Has, July 23.—Dr. James Naismith, professor of physical education in the University of Kansas, and director of gymnastics, said today that he saw absolutely nothing to uphold in pugilism. He likened prize fighting to cock fighting and bull fighting and said that any comparison of such a sport to college athletics was made in ignorance. In view of the fact that Prof. Maurice Parmelee of the department of sociology and economics recently pointed out the physical benefits of pugilism, the statement of Dr. Naismith can only be taken in direct refutation of what the professor of sociology said.

### NOTHING IN COMMON WITH SPORT

"Pugilism has nothing in common with football or any of the college sports," declared Dr. Naismith, "for in these any injury to the players is incidental and not a necessary part of the sport. Pugilism, however, should be classed with cock fighting, bear baiting and bull fighting, for the common aim is, so to injure the combatant that he is unable to carry on the contest."

### BRUTALITY IS NECESSARY

"The aim of pugilism and the great desire of every pugilist is to be able to deal such a blow to an opponent that he will be rendered unconscious. This often results in concussion of the brain and is by no means a minor injury. This is shown by the statement of fighters, who assert that a man who has once been knocked out is never the same fighter again. "It is hard to see how a contest entered into with this as an end can be of any benefit to the individual or the race. It might have been beneficial in those ages when might made right and the individual was supreme and each had to destroy the other or be destroyed, but the spirit of today in our social and in some extent, in our commercial life, is the 'square deal' for every man."

### COMPARISONS MADE IN IGNORANCE

Doctor Naismith then pointed out that it was pretty hard to get "a square deal" if another is willing to knock him unconscious in order to obtain the big end of a purse. He said that it was impossible to eliminate these evils so long as there is money at stake.

"A comparison between such a sport and college athletics necessarily made in jest or in ignorance," he added "for the whole aim of the students and the faculty of the university is to do away with just such evils from our college athletics."

### Change In Divisional Points

The C. P. R. passenger engines on the Crow now run from Lethbridge to Cranbrook, B. C., and back, instead of from Lethbridge to Crow's Nest and back from Crow's Nest to Cranbrook.

By thus doubling up these two subdivisions, the railway company accomplishes the same object that was aimed at by the recent contemplated change by which the passenger engines and crews were to run from Medicine Hat to MacLeod and from MacLeod to Cranbrook, and no engines or train crews have to move from Lethbridge, as they would have had to if the latter proposed arrangement had been carried out.

By doubling up these divisions the saving in locomotives is made, but the same number of crews are still engaged, four being assigned to Lethbridge, and four to Cranbrook, and by means of a "swingman" and crew located, one at Cranbrook and one at Lethbridge, the mileage is equalized.

The six trains affected by the change, which went into effect last week, are Nos. 7, 8, 211, 212, 213 and 214.

Writing to President: No one of the Board of Trade, relative to this arrangement, General Superintendent A. Price says it is not known yet whether it will be permanent or not.

This will depend largely, he says, upon what success they meet with in running their engines two hundred miles without any change. When the weather gets colder they may find it too long a run and may then decide to carry out the proposition they had in mind a short time ago. Personally, he hoped that they will not find it necessary to make the latter change.

## Lethbridge Fair

Promises To Excel All Previous  
Exhibitions Held In That  
City—Elaborate Outlay

The annual exhibition at Lethbridge takes place on the usual dates 8, 10, and 11. At the grounds things are beginning to look as if something were doing. Gangs of men are working on the buildings, the grounds, and the track, and nothing is being left undone that will add to the convenience and comforts of exhibitors or sight-seers. The City has just got a half dozen huge street watering carts, two of which will be in constant use on the grounds to lay the dust nuisance. A dining room is being built which will be in charge of a first-class caterer so that good meals can be obtained on the grounds. Special electric lights are being put in and a first-class evening entertainment with all the platform attractions, and a big Indian pow wow will be given Wednesday and Thursday evening. The big band contest on Wednesday promises to be the biggest event of its kind ever held in Alberta. Special rates are being given on all railroads and it is expected a big crowd will be in attendance.

### Canada's Next Census

The next Census of Agriculture will be taken under date of June 1911.

The area, product and value of field crops harvested in 1910 will be enumerated for fall wheat, spring wheat, barley, oats, rye, corn for husking, buckwheat, beans, peas, flax, mixed grains, hay and clover, alfalfa, or lucern, corn for forage, other forage crops, turnips, mangolds, sugar beets, other field roots, tobacco and hops; and grass seed, red clover seed and alfalfa seed will be enumerated for product and value.

Grain and other field crops for the harvest of 1911 will be taken by areas only, as none of these crops will be sown at the taking of the census.

### COMPARISONS MADE IN IGNORANCE

The products of these crops will be enumerated 1st in the year from the reports of correspondents.

Animals used annual products, also under the head of agriculture, will include the number of horses three years old and over, horses under three years, milch cows, other horned or neat cattle, sheep, swine, geese, ducks, hens and chickens and hives of bees held or owned by each person at the date of the census on the 1st of June, 1911.

The number of horses, milch cows, other horned or neat cattle, sheep, swine and poultry sold in 1910, will be recorded as well as the wool, milk, bone-made butter, home-made cheese, eggs and honey products of the year, and the quantities of milk and cream sent to the factory or sold.

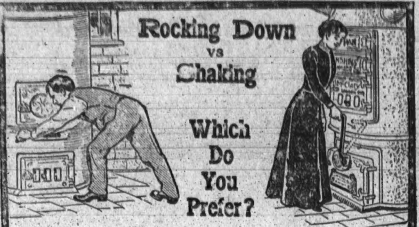

Two-year animals registered, or eligible for registration, which are sown at time of the taking of the census will be enumerated for horses, cattle, sheep and swine, but their number will also be counted with all other animals.

### Million Feet of Logs Destroyed

Nelson, B. C., July 23.—Rain is falling here to-day and doing good, and forest fires may be considered at an end. Yesterday a strong wind revived the flames at Movie and the gravity tramway with blacksmith shop at the St. Eugene mine was destroyed. A fire at Bald Peak destroyed a million feet of logs piled on the limits of the new Michael saw mill. In the vicinity of Phoenix dangerous fires were reported early to day, but tonight are believed to be under control. The Board of Trade has passed a resolution condemning the reports circulated regarding the bush fires, and the resolution states that the damage done by the fires was greatly over-estimated. It applauds the vigorous carrying out of the government's regulations by the gold commissioner of the district and states that the benefits from the policy are already being felt.

Alberta value of occupied farmland, \$20,460.  
Alberta has 152 branch banks. Increase of 146 per cent in 5 years—Calgary Herald.

Michael Roscoe says there is more "Alberta's Pride" than tea consumed in the Pass. I spoke he knows.

## Rocking Down

vs  
Chalking

Which  
Do  
You  
Prefer?

Look at the man above. He's SHAKING an ordinary furnace. He bends nearly double, exerts all his strength, works up a perspiration, and gets a sore back.

Now, look at the woman. She stands nearly erect, gently moves the lever to and fro, a few inches, and the ashes are dropped into the Sunshine ash-pan. This is called ROCKING DOWN. It's so easy a child can do it.

Which method do you prefer? Why, Rocking Down, of course.

Go to our agent in your locality. Let him show you the many other time-saving, labor-saving and fuel-economizing features of the Sunshine. Order him to install the Sunshine with a guarantee to heat your home to your entire satisfaction.

## Province of Alberta

"Alberta is a country with a limited past and a radiant future."

—Hon. C. J. Rutherford.

Population 1871, 10,000; 1896, 185,000; 1910, 300,000.

Population increased, 1900-1905, 125 per cent.

Area, 253,540 square miles (7 1/2 of Canada). Double the size of Great Britain; larger as France; 700 to 281 miles.

162,000,000 acres; of this 120,000,000 acres agricultural. Only 1,000,000 under cultivation.

Wheat production; 1909, spring wheat, 7,570,000 bushels, average 24.93; winter wheat 2,003,000, average yield 24.80. Total of 9,573,000 bushels.

Alberta has 500 miles of irrigation canals.

Alberta had, 1908, 1,070 school districts—increase of 168 over 1907.

39,653 pupils enrolled. Teachers 1,462.

Increase of 21% of fall wheat seedling, 1909.

Alberta Government report of 1909 crops: Yield of 30,861,950 bushels of grain, including 8,250,000 bushels of wheat (average 25 bushels per acre). Acreage under cultivation, 941,200.

All grain and roots production, 1908, (Dominion Census estimate), value \$20,741,000.

Cattle sold, 1909, 128,000; horses 17,500; swine, 80,000.

Live stock exports from Alberta, 1909, of horses, cattle, sheep and hogs, 9,000,000.

Alberta dairy products yielded 1909, \$408,000.

Alberta's coal production, 5 years, 1904-08, 6,604,904 tons, viz.: 728,981 in 1904; 811,288 in 1905; 1,835,000 in 1906; 1,634,712 in 1907; 1,945,000 in 1908.

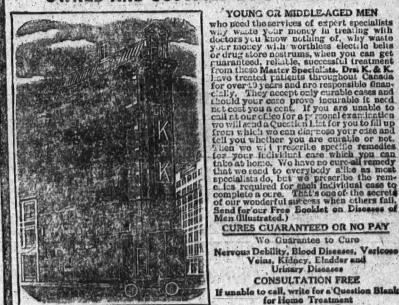

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by Dealers Everywhere.
